EXPERIENCES

Speeds Indonesia - Full-Stack Web Developer & Digital Ads Specialist; Sidoarjo | Apr 2024 - Present

Developed and maintained company profile and e-commerce platforms, focusing on scalable backend systems and seamless frontend integration. Key responsibilities:

- Designed and optimized MySQL database schemas
- Built backend systems and RESTful APIs using Laravel
- Developed responsive user interfaces using Tailwind CSS
- Implemented e-commerce features (product listings, variants, and order management)
- Performed debugging, testing, and system maintenance to ensure reliability
- Monitored and optimized digital advertising campaigns to improve performance

Gesatrans - Full-Stack Web Developer (Freelance); Sidoarjo | Mar 2025 - May 2025

Developed a company profile and booking platform for a travel business to improve service visibility and customer inquiries. Key responsibilities:

- Built an admin system to manage fleet, travel packages, and articles
- Implemented booking flow integrated with WhatsApp for order handling
- Developed backend using Laravel and MySQL
- Delivered a solution to support digital presence and lead generation

UNTAG Surabaya - Full-Stack Web Developer (Intern); Surabaya | Feb 2022 - Jun 2022

Developed a real-time tax consultation platform (Rumah Pajak) connecting users with professional consultants and student volunteers. Key responsibilities:

- Built a real-time chat system using WebSocket
- Implemented a payment gateway for paid consultations
- Designed a system supporting both paid and free consultation flows
- Developed backend APIs using Laravel

PROJECTS

- **Doltinuku - Flutter, Laravel, MySQL**

Developed a mobile e-commerce app for a village enterprise to sell products and tourism tickets.

- **Learning Management System - Flutter, Laravel, MySQL**

Developed an LMS platform, improving system performance by 36% compared to the previous web-based system.
